#### CASE NARRATIVE

Tetra Tech, EMI Project Name: R36720 Project # N/A Chemtech Project # P4504 Test Name: Oil and Grease

#### A. Number of Samples and Date of Receipt:

7 Water samples were received on 10/23/2024.

#### **B.** Parameters:

According to the Chain of Custody document, the following analyses were requested: Oil and Grease. This data package contains results for Oil and Grease.

#### **C. Analytical Techniques:**

The analysis of Oil and Grease was based on method 1664A.

#### **D. QA/ QC Samples:**

The Holding Times were met for all analysis. The Blank Spike met requirements for all samples. The Duplicate analysis met criteria for all samples. The Matrix Spike analysis met criteria for all samples. The Matrix Spike Duplicate analysis met criteria for all samples. The Blank analysis did not indicate the presence of lab contamination. The Calibration met the requirements.

#### **E. Additional Comments:**

As per method 1664A, MS/MSD is required to be performed with the sample analysis. However, Lab did not receive sufficient volume to perform the MS/MSD for P4504, therefore Lab reported MS-MSD from P4490.

I certify that the data package is in compliance with the terms and conditions of the contract, both technically and for completeness, for other than the conditions detailed above. The laboratory manager or his designee, as verified by the following signature has authorized release of the data contained in this hard copy data package.
