Secured by Check Point

Good afternoon,

The Region has been notified of the issue regarding Case 51753/SDG C0SY1. Also, please be sure to provide detailed information about these issues in the SDG Narrative and let me know if you have any questions.

LAB: "Lab is sending this email with regards to case 51753 and SDG C0SY1

Lab has analyzed low level VOA water analysis for the sample C0SY5 where sample has high concentrations of target analytes. Due to high concentrations of target analytes, undiluted analysis is not plausible to perform. Please see you attached form-1 and raw data for your reference. Therefore, the lab would like to confirm that Lab will report this dilution analysis as first analysis for final electronic deliverables.

"Please see attachment for your reference."

REGION: "Inform ACE the Region is in agreement with their below written approach; have ACE make note of the issue in their SDG Narrative and proceed with the analysis of the samples."

***** Please note that in order to waive/remove defects associated to this issue, please send a detailed waiver request to the appropriate ASB PM.

Thank you,
