Good afternoon,

Issue: For SDG C0AB0, the COC lists a 5-day TAT, but the Case is scheduled with a 7-day TAT.

Resolution: Per Region 3, the laboratory will disregard the 5-Day TAT on the COC, make note of the issue in their SDG Narrative, and proceed with the analysis of the samples as scheduled with a 7-Day TAT.

Please note that the laboratory may contact the appropriate CLP PM should any defects need to be waived for this issue.

Subject: Region 03 | Case 51852 | Lab ACE | SDG C0AB0 | Issue SDG Information | FINAL

Deepak,

For SDG C0AB0, the COC indicates a 5-day turnaround time; however, the Case was scheduled with a 7-day turnaround time.

Discrepancies between the information listed on the COC and what was scheduled should be reported to the appropriate QSS Coordinator for a resolution. I have included Daisy Bett (QSS Coordinator for Region 3) on this email; she will report the issue to the Region.

Thanks

Good afternoon,

Issue: The attached COC lists VOA analysis, but only TVOA and SVOA analyses are scheduled.

Resolution: Per Region 3, the laboratory should disregard the VOA analysis listed on the COC, note the issue in the SDG Narrative and proceed with TVOA analysis of the samples as scheduled.

Please note that the laboratory may contact the appropriate CLP PM should any defects need to be waived for this issue.

Hi Daisy,

Samples received with 011/11 shipment has below discrepancies,

Issue1: for case 51852 as per ASR TVOA analysis required but Analysis Key mentioned VOA on COC therefore lab would like to confirm that can lab proceed with Analysis ?

Please see attachment for your reference.

Thanks & Regards,

Deepak Parmar
