Good afternoon,

Discrepancies with tags, jars, and/or COC

Issue 1: Sample COAF3 is listed on the COC as a laboratory QC sample, but laboratory QC is not scheduled for this Case. Resolution 1: Per Region 3, the laboratory will note the issue in the SDG Narrative and proceed without laboratory QC as scheduled.

Damaged Samples

Issue 2: Sample COAF3 was received with two ambers broken. There is no evidence of cross contamination and there is sufficient volume for analysis. Resolution 2: Per SFAM0.1.1 Exhibit A, Section 5.4.2, the laboratory will note the issue in the SDG Narrative and proceed with the analysis of the samples.

Please note that the laboratory may contact the appropriate CLP PM should any defects need to be waived for this issue.
