Laboratory Results for: Ft Meade Tipton Airfield Parcel RI

Dear Yazmeen,

Enclosed are the results of the sample(s) submitted to our laboratory December 24, 2024 For your reference, these analyses have been assigned our service request number **T2402200**.

All analyses were performed according to our laboratory's quality assurance program. All results are intended to be considered in their entirety, and ALS Environmental is not responsible for use of less than the complete report. Results

apply only to the items submitted to the laboratory for analysis and individual items (samples) analyzed, as listed in the report.

Respectfully submitted,

ALS Group USA, Corp. dba ALS Environmental

Dawn Brown

As a part of ISO 17025 protocols, AL5 must notify clients that the quoted analytical methods performed by ALS may have minor modifications from the methods as published. These modifications are written into our Standard Operating Procedures and do not impact the quality of the data. Receipt of this document will be considered an acceptance of the procedures used by the laboratory for analysis unless notified by the client. Modifications may include, but are not limited to:

- The analysis of a sample matrix that differs from that stated in the published method (example ASTM D5865 Standard Test Method for Gross Caloritic Value of Coal and Coke is
 used for other matrices such as biomasa, Tire Derived Fuel, etc.).
- Analyzing a sample mass that differs from those in the published method (example to accommodate samples with high concentrations of analyte, samples of limited volume, or to comply with the instrument manufacturer's operating guidelines).
- Instruments used for the analysis may differ from those listed in the published method (example using ICP- QES when the method references flame Atomic Absorption
 Spectroscopy)

- Client: Chemtech Inc. 284 Sheffield St. Suite 1 Mountainside, NJ 07092 Attn: Yazmeen Gomez
