Secured by Check Point

Good afternoon,

Please see the resolution below.

Issue: The laboratory received soil samples for ICP-MS analysis with a 14 day TAT. However, the COC does not list MA 3105.0. The laboratory would like to confirm if the received samples should be analyzed under MA 3105.0.
Resolution: Per Region 8, the received samples should be analyzed without MA 3105.0. The laboratory should note the issue in the SDG Narrative and proceed with the analysis of the samples.

Please note that the laboratory may contact the appropriate CLP PM should any defects need to be waived for this issue.

Thanks,
Miles Hairston

Hi Miles,
These samples do not require MA3105 analysis.
Thank you,
Mark Wood

Good morning,

As per ASR 14 days TAT scheduled with MA, however on COC there is no MA number mentioned so lab like to this sample required analysis with MA ?

Please see attachment for your reference.

Thanks & Regards,
