Secured by Check Point

Good afternoon,

Issue: The Region identified that the sample collection date listed on the COCs for sample identifier MW-25-106 was incorrect.

Resolution: Per Region 5, revised COCs are attached. Please note the issue in the SDG Narrative and proceed with the analysis of the samples.

Please note that the laboratory may contact the appropriate CLP PM should any defects need to be waived for this issue.

Best Regards,
Tasmia Zafar

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Hello,

We realized that the sample collection date for one of the samples we shipped out last week was written incorrectly on its associated COCs. We wanted to bring this to your attention so that it could be processed correctly. This sample (MW-25-106) was actually collected on 1/29/25, not 1/28/25 as originally indicated on the COCs. Please see attached for the revisions for all affected COCs.

A revised COC .xml file has also been reuploaded to the EPA CLPSS Portal. The two ACE COCs uploaded through the portal were accepted for further use within the CLP program.

Sarah and Tim, please let me know if you would like us to do anything further with this such as notifying any of the other labs.

Thanks,

John Filoon
