Secured by Check Point

Good morning,

Issue: One amber for sample E29B2 was received, but SVOA, SVOA SIM, 1,4-Dioxane SIM, PEST and ARO analyses are all required. The laboratory would like direction on how to proceed with the limited volume.

Resolution: Per Region 5, the laboratory will note the issue in the SDG Narrative and proceed with the analysis of the samples for SVOA and SVOA SIM (including 1,4-Dioxane SIM). This resolution can be applied to all samples for this Case that have insufficient volume for all scheduled analyses.

Please note that the laboratory may contact the appropriate CLP PM should any defects need to be waived for this issue.

Best Regards,
Tasmia Zafar

Good afternoon,

Would the laboratory verify that samples E2989, E2996 and E29A3 also require 1,4-Dioxane SIM analysis which can be extracted together with SVOA and SVOA SIM analysis?
