## DATA OF KNOWN QUALITY CONFORMANCE/NON-CONFORMANCE SUMMARY QUESTIONNAIRE

| Laboratory Name : Alliance Technical Group LLC                  |  |                      | Client :                | Woodard & Curran     |              |     |  |    |             |
|---|--|----------------------|-------------------------|----------------------|--------------|-----|--|----|-------------|
| Project Location : Project Number :                             |  |                      |                         |                      |              |     |  |    |             |
| Laboratory Sample ID(s) : Q1725                                 |  | Sampling Date(s) :   | 3/31/2025,04/01/        | 3/31/2025,04/01/2025 |              |     |  |    |             |
| List DKQP Methods Used (e.g., 8260,8270, et Cetra) <b>TO-15</b> |  |                      |                         |                      |              |     |  |    |             |
| 1   | For each analytical method referenced in this labor<br>specified QA/QC performance criteria followed, incl<br>explain any criteria falling outside of acceptable gui<br>NJDEP Data of Known Quality performance standa | uding th<br>delines, | e requirement to        |                      | V            | Yes |  | No |             |
| 1A  | Were the method specified handling, preservation, and holding time requirements met?   |                      |                         |                      |              | Yes |  | No |             |
| 1B  | EPH Method: Was the EPH method conducted without significant modifications (see Section 11.3 of respective DKQ methods)  |                      |                         |                      |              | Yes |  | No | <b>M</b> /A |
| 2   | Were all samples received by the laboratory in a condition consistent with that described on the associated chain-of-custody document(s)?  |                      |                         |                      |              | Yes |  | No |             |
| 3   | Were samples received at an appropriate temperature (4±2° C)?  |                      |                         |                      |              | Yes |  | No | ☑ N/A       |
| 4   | Were all QA/QC performance criteria specified in the NJDEP DKQP standards achieved?  |                      |                         |                      |              | Yes |  | No |             |
| 5   | a)Were reporting limits specified or referenced on the chain-of-custody or communicated to the laboratory prior to sample receipt?   |                      |                         |                      |              | Yes |  | No |             |
|   | b)Were these reporting limits met?   |                      |                         |                      | $\checkmark$ | Yes |  | No | □ N/A       |
| 6   | For each analytical method referenced in this laborative<br>results reported for all constituents identified in the<br>presented in the DKQP documents and/or site-spect   | method               | -specific analyte lists |                      | V            | Yes |  | No |             |
| 7   | Are project-specific matrix spikes and/or laboratory duplicates included in this data set?   |                      |                         |                      |              | Yes |  | No |             |

Notes: For all questions to which the response was "No" (with the exception of question #7), additional information should be provided in an attached narrative. If the answer to question #1, #1A, or #1B is "No", the data package does not meet the requirements for "Data of Known Quality."
