John,

All noted – login summary was just sent out.

I wanted to inform you that we didn't receive the TB. It's listed on the COC but it wasn't in the cooler.

Best Regards,

Yazmeen Gomez

Subject: chains for today's soil TCE samples at Princeton

EXTERNAL EMAIL - This email was sent by a person from outside your organization. Exercise caution when clicking links, opening attachments or taking further action, before validating its authenticity.

Secured by Check Point

Yazmeen,

The chains for the soil TCE samples collected today (and presumably picked up by the courier today) at Princeton are attached. Note that the 1st chain requires a 2-day rush TAT and all samples on the second chain are to be placed on hold (as noted at the bottom of the chain) pending the rush TAT results.

One change I need you to make to the rush chain of samples – please place sample **S-870-G1-SO-22.0-22.5-041025-FD** collected at 1415 ON HOLD. We won't actually need that second field duplicate unless we end up releasing several of the hold samples from the other chain so I'd like it to be placed on hold until we see if that happens or not.

Give me a shout if you have any questions. I'll take a look at the logins when they come in tomorrow. Thanks!

Secured by Check Point

Hi Yazmeen,

We reviewed the rush TCE soil data that came in for Princeton and we won't be analyzing any of the soil TCE samples that are currently on hold. Please continues to keep the hold samples frozen for now though just in case someone on the team changes their mind soon, but we shouldn't need them so I wanted to let you know.

Also, I've noticed in a few of the more recent SDGs that only needed the short list of VOCs and 1,4-dioxane that we also got TICs data included in the pdf and EDD – not sure why TICs are showing up somewhat sporadically but we don't need TICs so can you check into that and see what's happening so you can remove the TICs on future reports?

Thanks.
