**Subject:** Re: Summary Report Details For Project Con Ed for FDR-Q3123.

Marcie,

We can analyze EPH GRO which will provide full carbon range analysis with concentration. Lab is checking on remaining sample volume to activate.

Regards,

Jordan

Jordan/Yazmeen,

Would you be able to confirm if there is sample soil to perform concentration analysis?  
If yes, can you please verify the method and if the analysis can be expedited?

Thank you,  
Marcie

Hi Marcie,

Correct, no match with Fuel #6. None of our calibration standards were detected in the sample, including #6 fuel oil type. As a result, we reported the outcome as **E (No Calibration Standard Detected)**.

Regards,

Jordan

Hi Jordan.

I just want to make sure I am interpreting this correctly. Is the below simply verifying that none of the fuel types are identified in the sample? So essentially a "non-detect"

Thanks,  
Marcie
