Jim,

We will analyze TCLP Metals and Flash Point/Ignitability for both soil and water samples on 3 BD TAT.

If any other changes are required pls confirm.

Regards,

Jordan

Secured by Check Point

Hi Jordan,

Please perform the following for soil and water samples.

Please perform Toxicity Characteristic Leaching Procedure (TCLP) testing on collected soil and water samples for the RCRA 8 metals: arsenic, barium, cadmium, chromium, lead, mercury, selenium, and silver, including their total concentration in both matrices. Additionally, conduct Flash Point testing on the water samples to assess ignitability characteristics.

Provide quantitative results with detection limits and regulatory comparison to EPA hazardous waste disposal thresholds.

A single analysis with these parameters would be outstanding. Please perform the expedited request for quickest turn around.

Thanks,
Jim

Subject: NYC DPR - JPCL / Strans Engineering

Jim,

The lab is requesting information on tests required for analysis for samples dropped off today under "Strans Engineering."

Please rewrite COC or confirm tests.

Lab will log this project under JPCL.

Regards,

Jordan
