Hi Steven and Jordan, based on the Friday results, we need to run samples 1C through 8C as well as DUP 3 and DUP 6, on standard 5-day TAT.

Thank you

Confirmed, thank you. The activation results will be ready 3/26 EOB.

Have a nice weekend!

Jordan Hedvat

Hi Chelsea,

Steve is out on vacation today and will be back in the office on Monday. We will activate these samples, can you confirm TAT required? Holding times for PCB in soil for extraction will blow on 3/25 at 10:00AM. I believe we can have these results out to you via 3 day TAT (ie. - 3/24 EOB)

Please confirm if we should run samples 1C - 8C and DUP 3, DUP 6 to save extraction holding time?

Thanks,

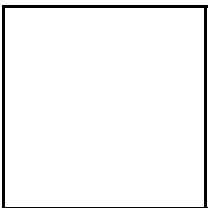

Jordan Hedvat

Hi Steven, based on the results for Project SCA – X127, we need to run samples 1B, 2B, 3B, 4B, 5B, 6B, 7B, and 8B, as well as DUP 2 and DUP 5.

Regarding the hold time for the remaining “C” samples – if we will gets results in time, please continue to hold “C” samples. If not, please extract samples 1C to 8C and DUP 3 and DUP 6.

Thank you
