Steve:

Your courier picked up the single sediment sample and the Total Fraction of the Modified Elutriate sample yesterday around 3 PM. Just like the Field Blank sample, I would like you to hold off analyzing the single sediment sample until I give you the go-ahead. If you have already begun the extraction process, then finish that process and hold the extract until I give the okay. Obviously, you can charge for doing the extraction. In fact, you should probably also do the extraction process on the Field Blank sample that Kurt picked up on Wednesday so there are no hold time issues with that water sample. Just like the sediment extract, please hold the Field Blank extract. Thanks.

Take care,

Jon
