Good afternoon,

Issue: The laboratory received two water blank samples on 4/28/2021, and the Case is complete. The laboratory would like to use sediment Sample BG596 for Laboratory QC for the remaining open SDG.
Resolution: The laboratory should proceed per SFAM01.1, Exhibit A, Section 5.5.4.1.

Please note that the laboratory will have to contact the appropriate CLP COR should any defects need to be waived for this issue.

Thanks,
