Grace Period Notification

Some defects have been modified/enhanced in the Method Compliance automated screening system. CLP laboratories are allowed a grace period to make necessary changes for future submissions. Only those defects for which an active grace period currently exists for the methods associated to this submission are listed in the table below. Please refer to the grace period expiration date as displayed below for each listed defect. If any of these active grace period defects are applicable to this SDG, they will be listed in the Grace Period Defect Detail section of this report and disincentives will not be applied for those defects that are assessed during the active grace period. Disincentives will be applied to those defects that are assessed after the grace period has expired.

Method	Test Name	Defect Message	Expiration Date
