Subject: Region 08 | Case 49879 | Lab CHM | Issue Discrepancies with tags, jars, and/or COC | FINAL
Attachments: 49879-0127.pdf

Hi Sohil,

Issue: The laboratory received samples on 1/27/2022, and the COC lists VOCs in the analysis column. However, TVOA analysis is scheduled for the Case. The laboratory would like to confirm they should proceed with TVOA analysis.
Resolution: Per Region 8, the laboratory should proceed with TVOA analysis. Please note the issue in the SDG Narrative and proceed with the analysis of the samples.

Please note that the laboratory will have to contact the appropriate CLP COR should any defects need to be waived for this issue.

Hi Matthew, the lab shall proceed as scheduled for TVOA analysis.

Thanks,
Don

Hi Matthew,

Sorry for the mistake on the COC, the requested analysis (TVOA) is correct.

Thanks,

Alex

Hi Matthew,

Samples received with 01/27 shipment has below discrepancy,

Issue1: Lab has received water samples with analysis key listed on the COC as VOCs. However, this case is scheduled for TVOA analysis therefore lab would like to confirm that can lab proceed as per ASR to perform TVOA analysis?

Please see attachment for your reference.

Thanks & Regards,

Sohil Jodhani
