Subject: RE: Sample shipment
Attachments: m1319coc.pdf

Good Afternoon,

Please be advised that due to the amount of sediment in the vials for sample "BP-TT-VPB-RW6-GW-258-260" the lab will need to combine the volume of the two vials to make 1 sample for analysis. That being said there will not be remaining volume should reanalysis be needed. Please let me know if you have any questions.

Best Regards,

Steven Chaimowitz
Project Manager
